This letter is in response to an attack letter dispersed by “the Anns”

**ST. JOHNS COUNTY
PROFESSIONAL FIREFIGHTERS
& PARAMEDICS ASSOCIATION**
An Affiliate of the International Association of Firefighters

Proudly Protecting Your Property, Lives and...Our Community.

Good Afternoon,

I am in receipt of your letter being distributed to our firefighters and have concerns about some of the blatantly false claims made by your campaigns. You claim that our board voted for the endorsements of your opponents, not the membership. I have seen this posted on social media by Ann Marie and now in a letter distributed by both of you. This is absolutely false! At our general meeting a membership vote was taken to endorse the incumbent commissioners. It was unanimous and the board did not participate in the vote. To be clear, our membership voted to endorse the incumbent commissioners.

Your letter is particularly misleading as it relates to the field training facility. A few things you may not realize, the incumbent commissioners went to Tallahassee to fight for funding for a training facility. I personally witnessed multiple meetings where they were advocating for our firefighters on many levels. They even voted for firefighter needs as legislative priorities. Telling our people that we don't have a location to put the training facility is dishonest considering it has been discussed at length at the BOCC meetings and with our members. At the BOCC meeting it was stated two sites were given as possible options. They are considering what will be the most cost-effective site, build time and fulfill the needs of fire rescue. It appears you are trying to use scare tactics against our firefighters.

You asked why our contract has not been finalized. It's simple, we have not agreed to anything yet. The county nor commissioners have delayed this in any way. I'd also like to point out that this was also mentioned at the BOCC meeting. At our general meeting we communicated to our members that waiting to see Jacksonville firefighters' contract would be beneficial. Knowing what is needed to remain competitive and not lose firefighters is critical for our department. Again, this has all been communicated to our members and the public, so it should be common knowledge. It looks like another scare tactic trying to manipulate our firefighters into thinking their contract is in jeopardy.

I applaud your statement on the commitment to firefighter mental health. I'd like to point out that our commissioners stepped up when we needed them on mental health. We now have access to mental health care that most departments in the state do not have. We are lucky to have commissioners who continually ask what more can be done to improve our mental health program. Access to this mental health care has saved firefighter lives and we are grateful to our commissioners. Further, these commissioners all voted to make firefighter health a legislative priority this year. Standing beside us in Tallahassee, our commissioners advocated for all firefighters. To say that these commissioners are not supporting firefighters is simply not true.

You ask why we stress the importance of this election. Our firefighters have never had the support from the BOCC that we have now. They voted to add additional firefighters because overtime was out of control, they voted to give us mental health access, they fought for funding for a training facility and statewide legislation for Firefighter health, they voted for hiring incentives to attract more firefighter applicants, they support new fire stations and firefighters, the list goes on. All of this support allows us to better protect our community. That support has not just been during the election year either, it has been consistent. What worries us is the talk of rollbacks. We believe there is a very strong possibility that rollbacks will stop all the forward progress we are making in our department. Many cuts were made when the 2021 rollbacks happened, and fire rescue was negatively impacted. We cannot afford to be cut anymore; it will be detrimental to the citizens we protect and firefighter health and safety. As you stated, roads and infrastructure are all important to the fire rescue mission. If rollbacks occur, what will be sacrificed in our community, what will be cut, what is the plan? These are all concerns we have and why the election is important to us. Like any organization that endorses a candidate, of course we are going to encourage supporting them.

I believe I was very open and honest with the both of you. I met with you, took you to stations, introduced you to our firefighters, and invited you to speak at our meetings. I explained very clearly how our endorsements took place, so you are very aware it was not a board vote. Our membership voted on ALL endorsements. Our Association is stronger and more united than ever before. It is my job as President to represent and advocate for our firefighters and their ability to protect our community. We are elected by the membership, and operate as a bottom-up organization. At any general meeting, the membership has the right to bring a motion and vote on the direction our organization should take. Attempts to divide us will certainly fall short and only make us more united.

In closing, we respectfully ask that you retract all statements from social media, websites, advertisements, letters or any other locations that claim our membership did not vote on endorsements or any other statements known to be false. We encourage letters of substance and facts that clearly define what you will do for firefighters, how you can help, and your plan to accomplish it. As always, I am available for a call or meeting if you have questions or simply wish to have a productive conversation. I truly hope we can move forward in a more positive direction.

A deep dive into the PAC dollars pouring into an intense advertising blitz of lies to keep three St. Johns County commissioners in office, reveals that SEVEN major St. Johns County developers and builders are investing heavily to maintain control of our government - and our tax dollars - for FOUR more years. The seven have already spent a staggering \$1.2 million to convince you to elect the commissioners they control. Blatant lies are used plentifully in attack ads against Ann Taylor and Ann-Marie Evans who will NEVER RAISE YOUR TAXES. What's more, our commissioners just voted *against* the rollback on the millage rate (except for Commissioner Joseph).

Dean and Whitehurst tried to raise your sales tax by 15% in 2022 despite record property tax revenues. And they won't stop trying. In a debate between Henry Dean and Ann Taylor, only Taylor said she would not consider a 1-cent sales tax referendum. Dean said "not now." (7/8/23) The incumbents are not slowing the growth as they claim. In four years, the number of overcapacity roads has increased by 65% and our overcrowded schools have lost their #1 ranking in the state.* Kids suffer, and so will everyone's property values that are tied to our school ranking.

Why can't one of the wealthiest counties in the state afford parks and fire stations without going heavily into debt? Ann-Marie Evans and Ann Taylor's top two issues are controlling growth and being a **conservative** steward of your tax dollars. Learn more about **Ann-Marie Evans** and **Ann Taylor**, and see their responses to the absurd lies about them at SlowTheGrowth.com. **Both are endorsed by the St. Johns County Republican Party** and by Commissioner Joseph.

CONGRESS (DISTRICT 6)

JOHN GROW

REPUBLICAN

"Our American systems are broken: currency is based on debt, not wealth; health care is based on disease ‘management’ (we pay as long as we’re still sick); over 6,000 inventions and patents (including cures for disease) are locked away for ‘national security’ reasons; the FDA allows seeds to be genetically altered (and patented); the defense industry needs conflict and wars to sustain itself (not peace). In essence, our systems are inverted, and no amount of ‘rearranging deck chairs on the Titanic’ will solve this. I intend to reform the systems that have prevented our real prosperity."

St. Johns County School Board Candidates Forum is Aug. 8

The League of Women Voters of Jacksonville First Coast (LWVJFC) and the American Association of University Women — St. Augustine, Florida Branch (AAUW) are planning a St. Johns County School Board Candidate Forum on Aug. 8.

All candidates who have qualified to be on the ballot in the upcoming August primary election have confirmed their participation. The forum will be held at the St. Augustine Main Library, 1960 Ponce De Leon, St. Augustine, and will be divided into two segments as follows: District 2 from 5 to 5:30 p.m., and Dis-

trict 5 candidates from 5:45 to 6:30 p.m.

The host organizations encourage members of the public to attend, as there will be an opportunity to ask questions of the candidates. Registration is encouraged at facebook.com/events/s/st-johns-county-school-board-c/839391591374721.

School board members play a vital role in creating educational policy for school districts and hearing from the candidates directly is an important way to learn more about a candidate before voting.

This forum will provide the public

with the opportunity to hear the candidates' views on issues important to voters of St. Johns County School Districts 2 and 5.

"Voters often don't realize that local elections get decided in the primary election," said Lanelle Phillmon, President of the LWVJFC. "This is especially true in the St. Johns School Board race for District 2 where only two candidates are running. The candidate who wins the primary will become the District 2 representative on the School Board."

"AAUW is proud to co-sponsor this event as we support an informed elector-

ate so that voters can make an educated choice when they cast their ballot," said Cathie Altman, president of the AAUW.

The forum will begin with opening remarks from the moderator. Each candidate will then make an opening statement followed by a question period, with questions from LWVJFC and AAUW as well as written questions from the audience.

The LWVJFC and the AAUW are nonpartisan organizations that promote participation of citizens in government. The LWVJFC and AAUW do not support any political parties or candidates.

COUNTY COMMISSIONER (DISTRICT 1)

ANN-MARIE EVANS
REPUBLICAN

“Our county is in decline. Make no mistake, this election will determine the future of St. Johns County. Having owned a thriving law firm (WA only) and served as a public records officer, I bring the skills necessary to slow the growth and fix our infrastructure while not raising taxes. Why is it that the wealthiest county in Florida is unable to fund infrastructure and support our teachers, police and firefighters? I know why, I’ve researched the last year and found unbelievable waste. Developer-funded PACs want you to believe blatant lies, I want you to know the truth.”

WESTON FERGUSON
REPUBLICAN

Ferguson is a lifelong Republican and wants to protect what she believes makes St. Johns County so special. To do this she plans to find creative ways to end the practice of clear cutting and strive to protect the environment. She also wants to put a moratorium on development and promises to vote for a moratorium on growth in the county on day one in office. Ferguson is an avid boater and beach enthusiast and wants to do what she can to protect the local waterways.

CHRISTIAN WHITEHURST

Christian Whitehurst is a small business owner and lifelong conservative Republican. He fought for St. Johns by eliminating wasteful spending and opposing new taxes, including the tree tax. He has also led the charge to use developer impact fees to fund road projects, new parks and libraries and fire stations. He fought to secure federal and state funding to ensure these projects did not use property tax dollars. He is a proud supporter of veterans and first responders and says he will “always fight to make sure we take care of the people who sacrifice so much for us.”

Alaimo is committed to supporting veterans and first responders and is proud of the work he did to help the Veterans Village along with voting for four new fire stations paid for by developer impact fees. Born and raised in St. Johns, Alaimo is dedicated to protecting what makes the county the best place to live, work and raise a family.

MICHAEL MCDONALD REPUBLICAN

“My name is Michael McDonald. I am thrilled to be on the ballot as an honest local to stand up and represent us. That is my goal, to represent the people instead of the powerful. Being born and raised here, I have gained intimate knowledge of our issues and ways to give logical solutions. My commitment is to St. Johns County, and that will never change. When elected, I will ensure our departments are fiscally responsible and bring transparency and accountability to our decisions. I hope to bring down the cost of living and bring up the quality of life.”

HEATHER HARLEY-DAVIDSON

Harley-Davidson, a resident of Ortega and Crescent Beach since 1970, graduated high school in 1982 and was a lifeguard for 15 years.

She received Associate of Art’s Degree from St. Johns River Community College then UNF for a Bachelor of Science in Industrial Technology Construction Management and business minor.

She married Warren Michael of 23 years and has two children and five grandchildren.

Harley-Davidson owned Advanced Building Company of North Florida, Channel Marker 71 Barrier Island Inn & Restaurant, and A1A Crab Shack.

She is a licensed general contractor, real estate broker, award-winning artist in the St. Augustine Art Association.

CLAY MURPHY

A native of Kentucky, Clay Murphy was born in 1960. His family settled in Palatka in 1971.

After graduating from high school, Murphy worked for the Putnam County, and later the Jacksonville, Sheriff’s Offices. In 1982, he joined the Florida Highway Patrol as a trooper, serving 26 years in that position. He moved to St. Augustine in 1991.

After retiring from the Florida Highway Patrol in 2008, Murphy and his wife became the owners of Sonny’s BBQ in St. Augustine. Murphy is also co-owner and lead instructor at Ancient City Traffic School and Ancient City Motorcycle Training.

COUNTY COMMISSIONER (DISTRICT 5)

HENRY DEAN REPUBLICAN

Henry Dean is a conservative Republican who has dedicated many years to serving the people of St. Johns. From eliminating wasteful spending and keeping taxes low, he put the best interest of county residents first. He put more than 60,000 acres of land in St. Johns into conservation so it can never be developed. He led the charge to hold developers accountable by denying projects that did not meet his strict requirements of compatibility and infrastructure. He fought for the tourism industry, ensuring that small businesses are not burdened by government regulations to allow for a thriving local economy.

JOHN HIGBEE III

John Higbee III lists his address at Jacksonville. He did not respond to our inquiry.

ANN TAYLOR

My first priority is to slow residential growth. The number of overcapacity roads has increased by 65% in four years. Our overcrowded schools have now dropped in the state ranking to number 2. This hurts our children’s educations and will impact our property values.

Curbing wasteful spending in government will also be a top priority. As a fiscal conservative, I oppose any new taxes, contrary to the blatant lies about me in attack advertising that claim I’ll raise taxes.

Preserving our quality of life while maintaining a vibrant economy is my goal.
