THE ULTIMATE WOOD HEAT

The most efficient, easiest-to-operate EPA Step 2 Certified Outdoor Wood Furnace

"It is so much more convenient than having to constantly load the indoor wood burner and I am using about half the wood. I am more at ease with the fire outside away from the house along with the dust, bugs and ash." -- Lucas

- Top performing** - use up to 60% less wood compared to other methods of wood heating
- Built to last** - titanium-enhanced stainless steel firebox ensures zero corrosion inside firebox
- Peace of mind** - keep the fire and mess outside; safer, more convenient wood heat. See furnace performance and operation from anywhere with your smartphone (visit MyFireStar.com/demo to see a live demonstration)
