# LAND FOR SALE

## 129 ACRES ± | WRIGHT CO., MO | \$499,000

Hunters take notice. Nice hunting farms like this one are not by accident. The sellers have been working with a Land & Legacy custom management plan to help this farm reach its maximum potential. They have this farm set up nicely with interior trails accessing multiple ridges, draws and food plots. Live water springs are key for the bolstering whitetail & turkey population. Nearly 15 acres of food plots planted in soybeans and fall annuals will be ample food to keep them coming all season. The ridges are comprised of hardwoods galore. Towering white and red oaks

produce a heavy crop of acorns, adding to the farms ability to attract & hold wildlife in the fall & winter months. Some timber stand improvements have been started to enhance the forrest browse production. Bedding areas were created to ensure the whitetails have plenty of cover to be comfortable. You can be in the drivers seat of a "Cadillac" hunting property this season.

- Approximately 15 acres of food plot planted in soybeans and fall annuals
- Established trails for nice access throughout the property
- Multiple springs and spring fed pond
- Bedding areas and TSI have been started.

- Mature hardwoods producing mass acorn crops
- Owned access off State Hwy TT
